

## TETAF Maternal Surveyor Application & Credentialing Requirements

### Summary of Expectations and Responsibilities

- Meet expectations of training and associated proctoring based on Texas Department of State Health Services (TDSHS) guidelines, including successful completion of an approved maternal facility site surveyor course and an approved site survey internship with successful re-credentialing every 4 years
- Willingness to commit to a minimum of two site surveys per year outside their Perinatal Care Region (PCR) and in facilities at least 100 miles from the surveyor’s place of employment
- Must be active participants in their Perinatal Care Region through committee or executive board activity
- Must participate in training sessions implemented by TETAF and/or TDSHS that further development and consistency in maternal levels of care designation
- Must conduct themselves in a professional manner and maintain strict confidentiality

### Qualifications and Requirements

- Licensure in good standing with relevant state licensing board
- Currently employed/practicing in the coordination of care for maternal patients
- 5 years (or greater) experience in the care of maternal patients at a level III or level IV facility
- Experience with patient safety and quality improvement initiatives
- Employed by facility maintaining level III or IV maternal designation in good standing (no contingencies)
- Active in professional organizations supporting maternal care
- Current Advanced Cardiac Life Support (ACLS) certification (preferred)
- National certification (RN), Board certification in respective specialty (physician)
